PUGLIA CAKE FESTIVAL 2025

REGULATIONS

Category (D): Modelling – International cake design Competition.

Theme: " Greek Mythology – gods, goddesses and heroes"

THEME OF THE WORK and methods of realization:

You are asked to create a modelling work in the form of a minimum 1 tier and a maximum of 3 tiers cake. The work may also contain sculpted parts, decorations made with painting or other decorative techniques, provided that **the modeling technique prevails and is the protagonist**.

Greek mythology is a set of myths and legends that tell the origins of the world, the vicissitudes of deities, heroes and mythological creatures.

The "Greek mythology" theme requires you to represent a Greek myth or legend with the characters that best represent it: Apollo and Daphne, Orpheus and Eurydice, Narcissus, Icarus and Daedalus. Prometheus, Pandora, Perseus and Medusa, Minotaur and many others.

Choose the myth or legend that you loved most and represent it through the modelling technique, immersing us in the story. Pay attention to the reproduction of expressiveness, gestures, the characters that distinguish them and the physical characteristics: proportions, hairstyles, clothing, etc. The decoration around the characters and mythological creatures should relate to the scene and increase the atmosphere of the myth/legend.

The relevance to the theme is of fundamental importance for the evaluation of the work by the international judges.

CATEGORY GENERAL RULES:

"Modelling" – International cake design Competition

- A.** The works must be unpublished, they cannot be the result of participation in a course, or in another competition and they cannot be a copy of the work of other Cake Designers.
They must be created by a single artist, the same one who registered and participates in the contest. Works created collectively are not accepted, under penalty of exclusion from the Competition.
- B.** The cake may have a surface size between **25x25cm and 40x40cm** including cake board.
The size of the cakeboard must strictly be between **25x25cm and 40x40cm**.
The work with all the decorations and its vertical projections must fit within these measurements; anything that protrudes from the cakeboard will therefore **be a reason for disqualification**.
The height of the work is free.
- C.** The quantity of additional decorative techniques used will not be evaluated, which must instead all have an adequate technical and executive quality, and which will be judged on the basis of their quality.
- D.** The work must be accompanied by an **anonymous technical sheet** (attached to the regulation). It must contain the title of the work and a brief introduction describing the source of inspiration, the work carried out, the techniques and materials used.
If the work were to suffer damage during transportation, it will be advisable to report it on the accompanying technical sheet, otherwise the damage will be evaluated negatively in the scores assigned by the Jury.

The Organization will provide a plaque with the words "*Damaged in Transit*". In this way, the damage will not change the judgment on the evaluation of the work.

The technical sheet must be presented at the same time as the work and the anonymity of the artist must be respected, under penalty of exclusion from the competition.

For the innovative or little-known techniques introduced, a detailed description is required to be included in the technical sheet. **The attached technical sheet must be completed in English and in Italian.**

- E. Each competitor will be able to participate in the competition by presenting only one work, created with the utmost commitment. The response of the International Jury will be unquestionable, therefore at the time of presentation the Participant will tacitly accept the verdict.
- F. The cleanliness and precision of the work will be carefully evaluated, which will also be awarded a special mention. It is therefore advisable to pay particular attention to cleanliness and precision, avoiding leaving fingerprints, cuts, joints, etc.
The work will be evaluated at 360° from every angle, so make sure you have covered it with edible material and that the internal structure is visible from no angle.
- G. Artificial objects and/or decorations such as eyes, eyelashes or artificial hair, lights/leds, plexiglass, plastic or metal materials, etc. are NOT allowed, under penalty of exclusion from the competition.
- H. NON-EDIBLE materials are NOT allowed on sight, sculpted dummies may be used but they must be completely covered with edible material (sugar paste, royal icing, chocolate...).
- I. Covered wires, internal wire structures or wooden sticks will be accepted, but must not be visible. The external wires will only be permitted as stems for flowers and only if covered with guttaperga inserted into the cake with special posypics or straws.
- J. Satin ribbon is only allowed to cover the edge of the base of the artwork. Your work in the Modelling category must be placed on a cake board which must be covered with edible material with a thickness suitable for the size of the cake.

All the works will be evaluated by an international jury of expert professionals in the sector, awarded nationally and internationally. The works will be evaluated strictly anonymously, according to the following criteria:
